## Children's Health

I found this great article and wanted to share go to <http://www.mayoclinic.com/health/childrens-health/HQ01107>

It talks about 10 tips for picky eaters. Here are just a few.

**Don't offer dessert as a reward**

Withholding dessert sends

the message that dessert is the best food, which may only increase your child's desire for sweets. You might select one or two nights a week as dessert nights, and skip dessert the rest of the week — or redefine dessert as fruit, yogurt or other healthy choices.

**Respect your child's appetite —**

**or lack of one** Young children tend to eat only when they're hungry. If your child isn't hungry, don't force a meal or snack. Likewise, don't bribe or force your child to clean his or her plate. This may only ignite — or reinforce — a power struggle over food.
